

Conservation Commission

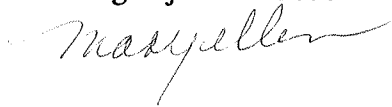

Minutes February 9, 1998

Members present Deborah Mielke, Conrad Ohman, Ray Tryon, Richard Andrus, Chris Blair

7:30 The commission met with the Board of Selectmen regarding the addition to town hall. The concern is the 100 year flood plain and the Rivers Bill. The town has no other choice of where to put the addition. The building is within the 200 foot riparian zone. It is also within the 100 foot no build zone. Connie Ohman will research the implications of the rivers bill on this project. The BOS stated there would be a meeting of all the town boards on February 10. The BOS will file in time for the March meeting. There are disabilities concerns that will be addressed with this addition. The BOS should check with town counsel to get his input. The CC felt a NOI would be the appropriate filing. The plan shows an amount of compensatory storage. Ray Tryon felt the project would not loose any compensatory storage.

Bob Rausch for Gould Farm spoke to the commission about a picnic area and parking lot 140 feet to the river. The cc questioned if it is possible to get the project out of the 200' area. If the configuration was changed it might be possible. If it could be designed outside out side of the 200' zone they would not need to file.

Meeting adjourned 9:00

A handwritten signature in cursive script, appearing to read "Maryellen", written in dark ink.
